

# Garnet Schulhauser

Garnet Schulhauser is a retired lawyer who lives near Victoria, on Vancouver Island, with his wife, Cathy, and little dog, Abby. After practicing corporate law for over thirty years in Calgary with two blue-chip law firms, he retired in 2008 and his first book, *Dancing on a Stamp*, was published in 2012. Since the release of his first book, Garnet has been active with book signing tours and speaking engagements, and has been interviewed on over one hundred twenty radio talk shows broadcast from studios in the U.S., Canada, the United Kingdom, Ireland, and Australia.

In *Dancing on a Stamp*, Garnet recounts how his life changed dramatically one day when he was confronted on the street by a homeless man named Albert (who was actually a wise spirit in disguise). This seemingly chance encounter launched a provocative dialogue with Albert who disclosed startling new revelations about our true nature as eternal souls, the cycle of reincarnation on Earth, and the afterlife that awaits us all.

Garnet's second book, *Dancing Forever with Spirit*, describes his next encounter with Albert who guided him on a series of astral adventures to visit the Spirit Side, the Akashic Records, distant planets with fascinating life forms, and a human civilization that made the shift to the New Earth.

His third book, *Dance of Heavenly Bliss*, continues the saga of his astral trips with Albert who took him to meet Gaia, the consciousness of Mother Earth, two of Earth's mythical creatures—a Sasquatch and an Irish fairy, a human civilization on another planet that is ruled by women, and many fascinating souls on the Spirit Side who regaled him with tales of their lives on Earth, including Moses, Jesus and his mother Mary, Lucifer, and the goddess Athena.

Garnet describes his most recent astral travels in his fourth book, *Dance of Eternal Rapture*, including encounters with Mohammed, Buddha, Mary Magdalene, and Jesus, another conversation with Gaia, and a journey to Earth in a parallel universe where there is much less violence and strife due to a couple of quirks in the history of the planet.
