

Dance of Heavenly Bliss

Divine Inspiration for Humanity

by

Garnet Schulhauser

Dance of Heavenly Bliss continues the saga of the author's spiritual awakening that began when he was confronted on the street by a homeless man named Albert who turned out to be a wise spirit in disguise. The author's first two books, *Dancing on a Stamp* and *Dancing Forever with Spirit*, describe his first encounter with Albert and the provocative dialogue that ensued, as well as a series of astral trips he took with Albert to the Spirit Side and to other parts of our galaxy.

In his third book, the author recounts more astral adventures with Albert who took him to meet a number of distinguished souls on the Spirit Side, including Moses, Jesus and his mother Mary, Lucifer, and the goddess Athena. In the Akashic Records, he got to view an ancient human civilization that lived among the dinosaurs, the building of Stonehenge with the help of visitors from the stars, and the crash of the alien spacecraft near Roswell in 1947.

Back on Earth, the author describes a meeting with Gaia, the consciousness of Mother Earth, who expressed dismay at the abuse humans inflict on her and her beloved critters. And he was delighted to meet two fabled Earth creatures, a Sasquatch and an Irish fairy, both intelligent and peace-loving beings, who lamented that they had to avoid all contact with humans because of our propensity for violence.

These astral trips included visits to other planets with human civilizations that are much different from our own, including one with a matriarchal society ruled by women, as well as a frightening encounter with a Black Hole that opened a doorway for the author to enter a fascinating sub-atomic world.

Dance of Heavenly Bliss was written to instill in humans the urgent need to discard their negative emotions and embrace love and compassion for one another, for Mother Earth, and for all the creatures who share our planet. It reveals that we are all eternal souls traveling on unique journeys on Earth designed to help us grow and evolve as souls, which means that we should never judge other people because we do not know where they have been or where they are going.

Albert inspires humans to pursue spiritual enlightenment by reminding us that we are all part of the Source and intimately connected to each other and to everything else in our vast universe. And when our physical bodies perish we will all return to the Spirit Side where we will be welcomed back with unconditional love, as we eagerly plan the next steps in our evolution.
